Author Submission

Conference: Interferometry for Optical Astronomy II (AS05)

Chairs: Wesley Traub

Submitted: 28 January

Title:

Interferometry Science Center (ISC)

Principal Author:

Anneila Sargent

Abstract:

The Interferometry Science Center (ISC) is operated jointly by Caltech and JPL and is part of NASA's Navigator Program. The ISC has been created to facilitate the timely and successful execution of scientific investigations within the Navigator program, particularly those that rely on observations from NASA's interferometer projects. Currently, ISC is expected to provide full life cycle support for the Keck Interferometer, the Starlight mission, the Space Interferometry Mission, and the Terrestrial Planet Finder Mission. the nature and goals of ISC will be described.

Principal Author Affiliation:

California Institute of Technology
Caltech MS 105-24
Pasadena, CA 91125

USA

Phone: 626 395 6622

Fax: 626 568 9352

Email: ais@astro.caltech.edu

Principal Author Biography:

Anneila Sargent is Professor of Astronomy at the California Institute of Technology and Director of Caltech's Interferometry Science Center and Owens Valley Radio Observatory.

Presentation Type:

Oral Presentation

Keywords:

optical interferometry, community support
